The Columbian.

12/20/91

Dear George,

I've just received, from Vancouver, Washington, a lemgthy article signed by Gerald Ford only complaining about Oliver Stone and his movie. Because I could not imagine Ford taking time for anything like that I went through my file and lo! it begins, verbatim, with what the Post was given and published under both names. Only it is much longer. I'm not taking time to read it.

My mail is beginning to reflect what some have feared, that the movie is having a great impact on the young.

It appears that along with our history he has stolen the grief.

Best,

Harold
